with the first portable, real-time
shot detection device.

Setting up a Global Competition.

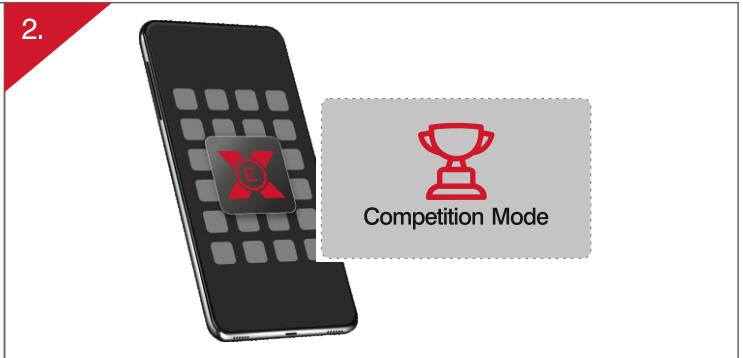

www.eleyxshot.com

CONNECT WITH ELEY, CONNECT WITH THE WORLD®

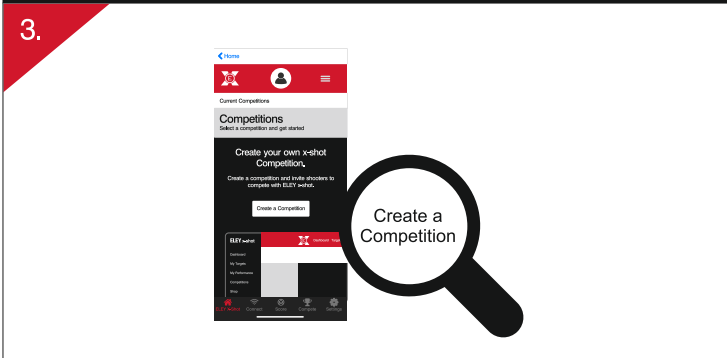

Note. Before proceeding with this section. Set up your device as demonstrated in the Getting Started Guide Steps 1-23).

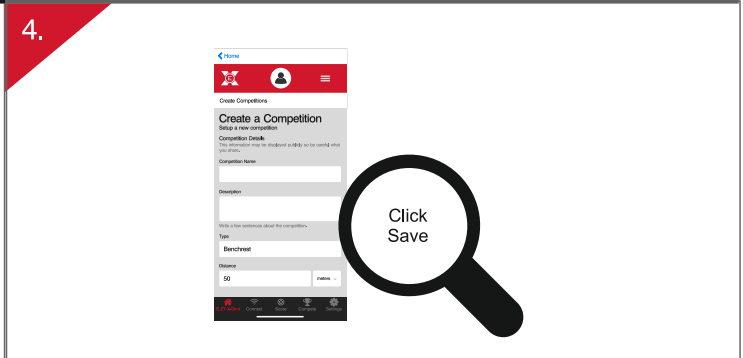

1. Set up a Global Competition via the ELEY x-shot app. Click the “Performance Data” button.

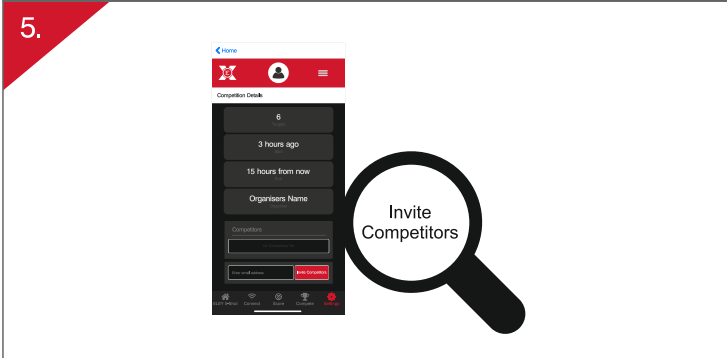

2. Click on the “Competition Mode” button or go to <https://www.eleyxshot.com>. Login and select “Competition Mode” The set up process is similar.

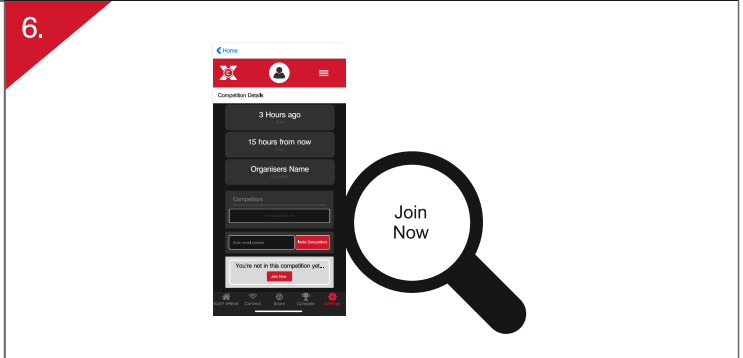

3. Click on the “Create a Competition” button.

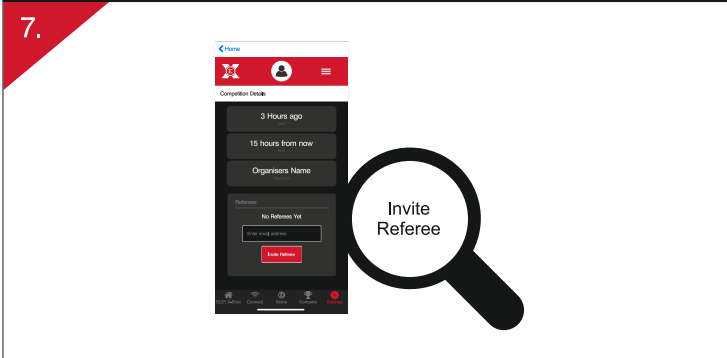

4. Fill in the details of the competition. Click the “Save” button.

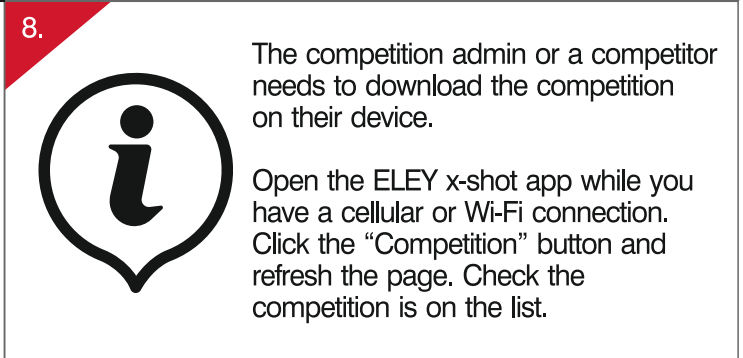

5. Scroll down on the Competition Details page. Enter the email address of the competitor. Click the “Invite Competitor” button. Repeat until all competitors are invited.

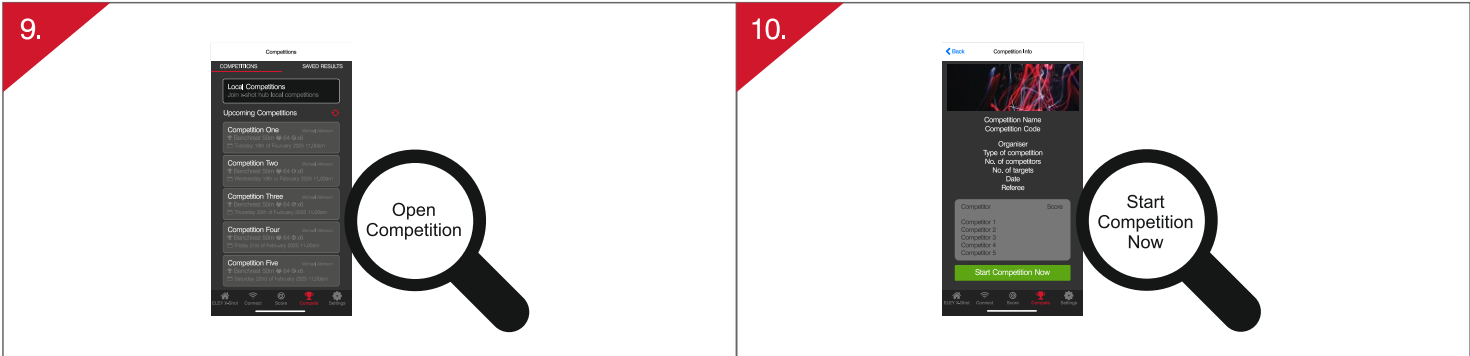

6. If you are one of the competitors, you need to send yourself an invite. Each competitor will receive an email inviting them to “Join Competition”.

7. Invite a referee. The default referee is the administrator. Click the “Invite Referee” button. When the referee accepts their invitation it will be displayed in the competition.

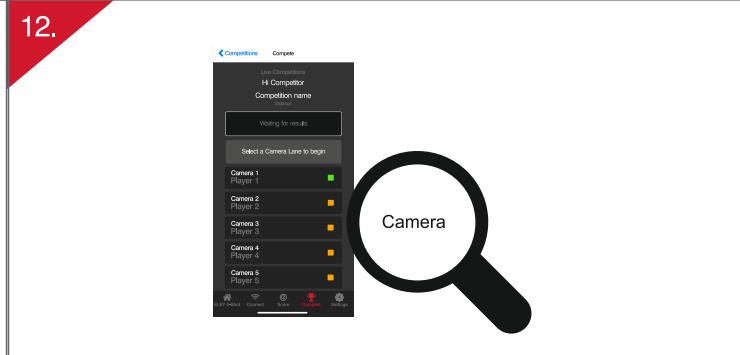

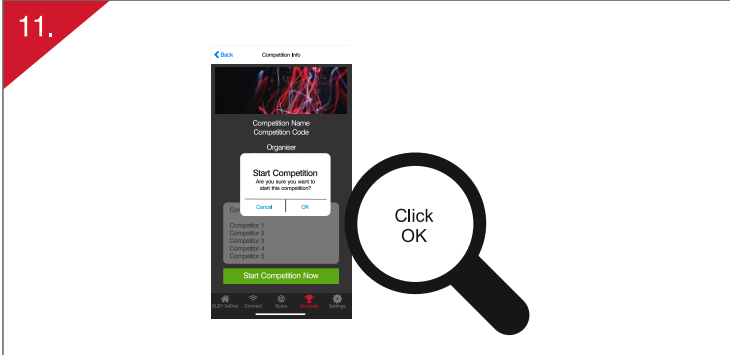

8. The competition admin or a competitor needs to download the competition notice on their device. Open the ELEY x-shot app while you have a cellular or Wi-Fi connection. Click the “Competition” button and refresh the page. Check the competition is on the list. Download Competition notice.

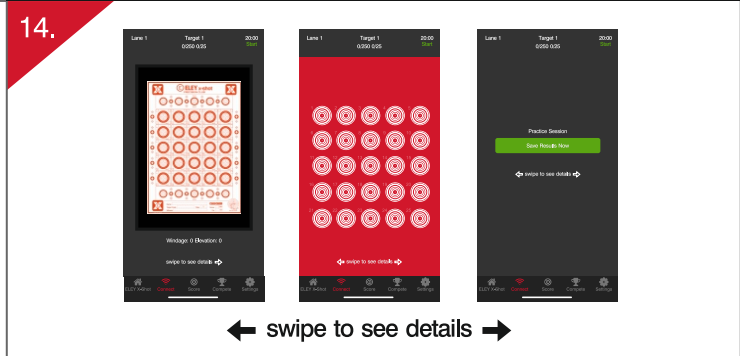

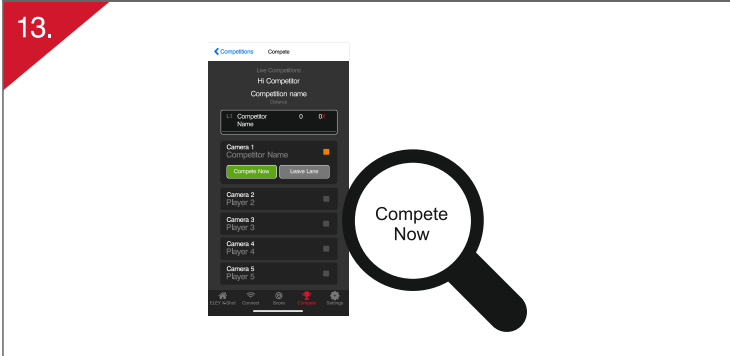

When you arrive at the competition open the ELEY x-shot app, click the “Competitions” button and select your competition from the list.

Click the “Start Competition Now” button.

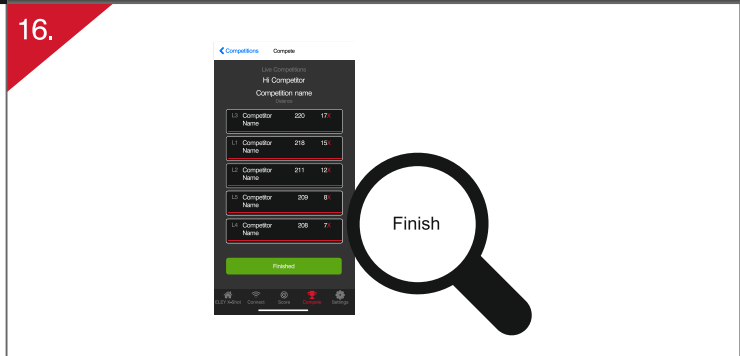

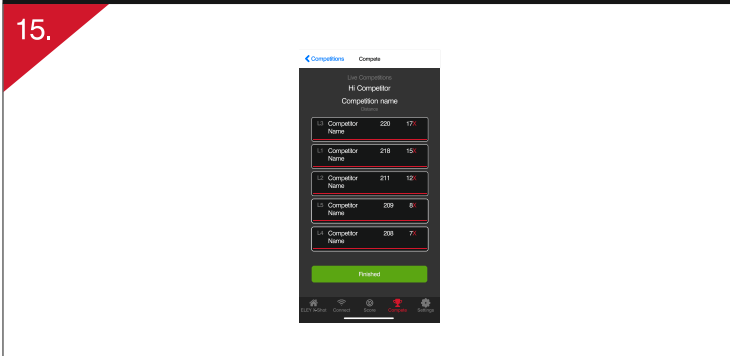

Click “OK” to proceed and select your camera/lane.

Select the camera/lane you will be using by clicking on the corresponding box.

When you are ready, press the “Compete Now” button.

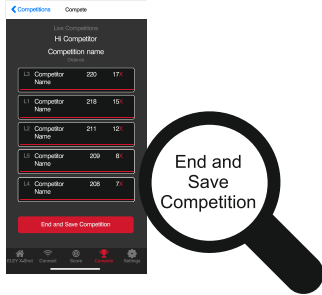

When your target is displayed, start shooting. Similar to practice mode, you can access different screens by swiping to the right and left.

The screen will display live: Your score, the other competitor’s scores and the current ranking.

As the competition administrator, only press the “Finished” button when all the competitors have completed their targets or the time has ended.

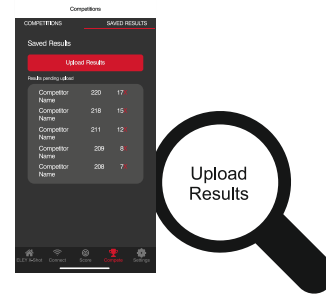

17.

End and Save Competition

Wait until all the scores have been updated. Click the "End and Save Competition" button.

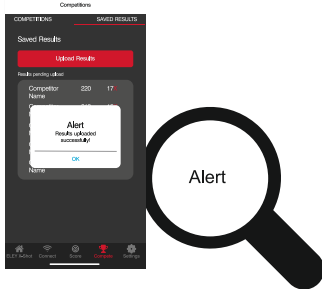

18.

Upload Results

Switch your device to a cellular or internet connection before clicking the "Upload Results" button.

19.

Alert

You will get an alert. Press "OK".

20.

Performance Data

The individual target can be accessed as per the practice one. Go to "Performance Data" for a summary of the competition.

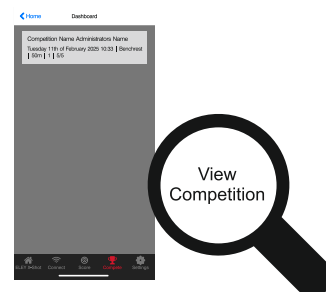

21.

Competition Mode

Click on "Competition Mode".

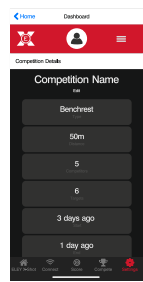

22.

View Competition

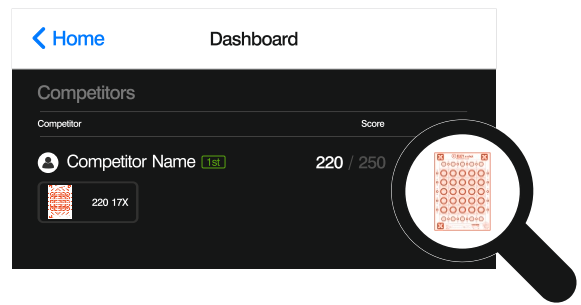

Click on the competition you want to view.

23.

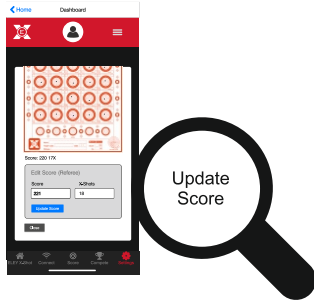

You can access all the competition data and results. Only the administrator/referee can amend the score.

24.

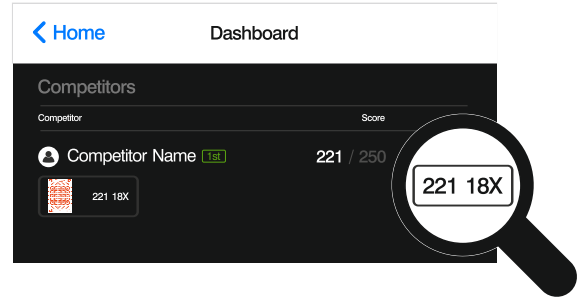

Once the referee accepts the invite they can open the competition and click on the target that needs to be updated.

25.

The referee can enlarge the image to check the shot. The referee can update the score and press the "Update Score" button.

26.

The new score will be saved and the ranking updated.
