The screen will display live: Your score, the other competitor's scores and the current ranking.

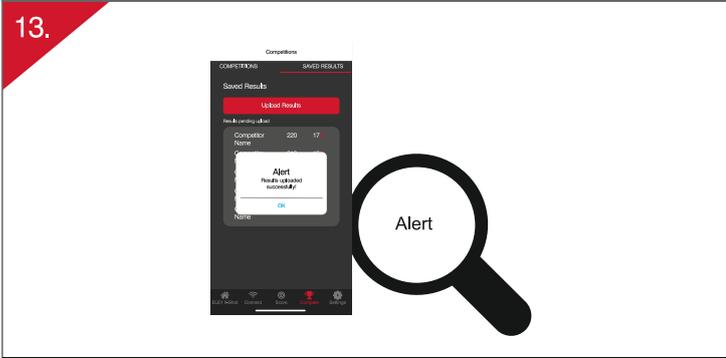

As the competition administrator, only press the "Finished" button when all the competitors have completed their targets or the time has ended.

Wait until all the scores have been updated. Click the "End and Save Competition" button.

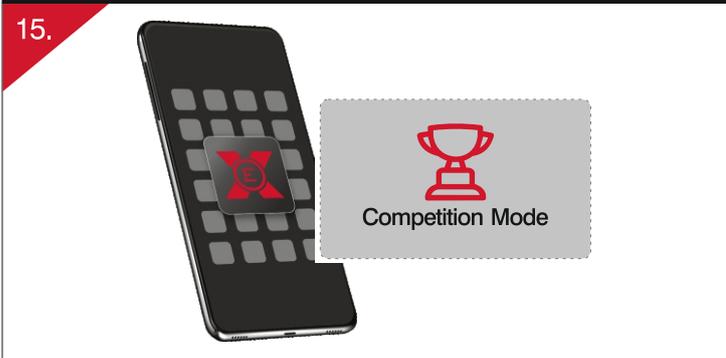

Switch your device to a cellular or internet connection before clicking the "Upload Results" button.

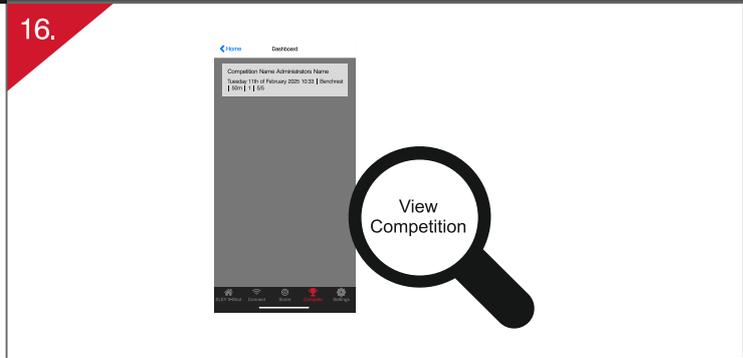

You will get an alert. Press "OK".

The individual target can be accessed as per the practice one. Go to "Performance Data" for a summary of the competition.

Click on "Competition Mode".

Click on the competition you want to view.

17.

You can access all the competition data and results.

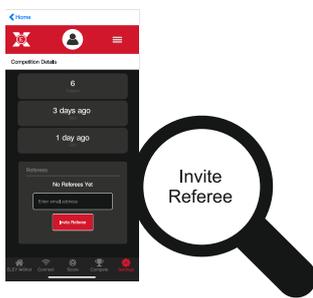

18.

If there is a challenge to a score, the score can be manually adjusted by a referee. (The default referee is the person who set up the competition).

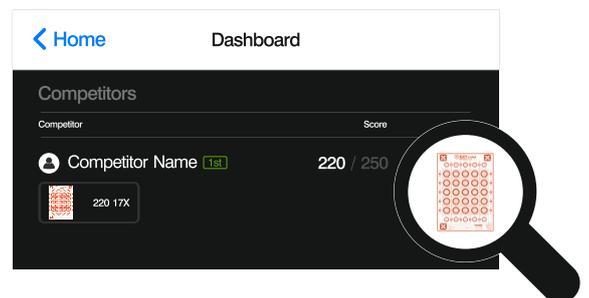

Score challenge note.

19.

Scroll down to the "Invite Referee" section, enter the email address of the person you would like to referee. Press the "Invite Referee" button.

20.

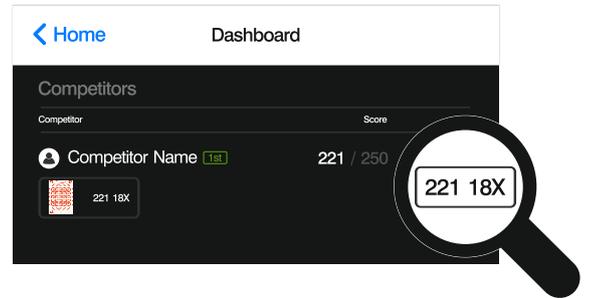

Once the referee accepts the invite they can open the competition and click on the target that needs to be updated.

21.

The referee can enlarge the image to check the shot. The referee can update the score and press the "Update Score" button.

22.

The new score will be saved and the ranking updated.
